bitcoin@bitcoinprbuzz.com**

Our “Premium” and “Ultimate” services fully comply with SEC rules regarding publicly traded companies such as Regulation Fair Disclosure and the Sarbanes-Oxley Act of 2002.

Custom campaigns and services are available to meet any budget and requirements.

What our clients say:

["Alan Yong, Early Tech Entrepreneur and DNotes Founder: "As someone who is very familiar with PR, news distribution, and being a part of the news for number of years, I am impressed by what Bitcoin PR Buzz has been able to accomplish."](#)

[Franko: "BITCOINPRBUZZ IS THE REAL DEAL!!!!!!!!!!"](#)

Franko has now been mentioned by reuters, the wallstreet journal, bloomberg and 500 more news outlets. I will use this service for all of my pr needs from now on!!! They honestly should charge more."

[SYTECH Systems Technology Consultants Ltd.](#): *“Being a well established company with an international reputation to uphold at first we were slightly hesitant – even though we had only heard good things about the service Bitcoin PR Buzz provides. Not only was our Press Release message carefully crafted over many emails back and forth, they even suggested a new Bitcoin service we could add which was a world first! Our Press Release was syndicated virally through social media, Bitcoin news sites, and many other online news sites: generating a great amount of interest in our new Bitcoin services. We are more than happy with the results, initiative and customer service which seems to be the norm around here, and recommend their services to anyone in Bitcoin who needs to have their message heard. ”*
